

JOHN F. ALLEN

Quality, Selection and Service Since 1889

*Crystal Stones
Collection*

www.JFALLEN.COM

We are your trusted, reliable sourcing partner, offering unparalleled quality, selection and service for over 100 years.

Our team at our Warwick, Rhode Island headquarters

John F. Allen

Our original calling card

About Us

Founded in 1889, we are a fourth-generation family-owned importer and wholesale distributor of imitation and genuine beads, stones and crystal components to the jewelry, fashion accessory and garment industries.

Over the past 100 years, we have developed extensive industry knowledge and a strong network of global sources, which makes us uniquely qualified to serve our customers.

What We Offer

- **Selection and Inventory:**

We carry over 65,000 different items in 38 product lines including hard-to-find vintage goods for one stop shopping and reliable, quick order-fulfillment. We maintain stock levels that anticipate your needs, while continually bringing in new items at competitive prices.

- **Unparalleled Customer Service:**

Each of our friendly, knowledgeable sales and customer service team members have decades of industry experience. They can help you solve your problems! Just ask.

- **PRECIOSA Platinum Distributor:**

We have the largest selection of Preciosa crystal products in the U.S.

Visit Us

We are headquartered in Warwick, Rhode Island with a 22,000 sq. ft. warehouse and showroom, in addition to a strong sales presence in the New York metro area.

Crystal Stones From Around The World

We're proud to be a Preciosa Crystal Platinum Distributor

Originating in the Bohemian region of the Czech Republic, the birthplace of the centuries-old crystal and glass making industries, Preciosa is a world-leading producer of machine cut crystal stones, beads and jewelry components. Preciosa's crystal chatons, flat back, fancy and sew-on stones are recognized for their fiery brilliance, precision cuts, superior optical clarity and product consistency.

As a **Preciosa Platinum Distributor**, we carry the largest selection of Preciosa crystal products in the U.S. With such a wide selection in stock, we hope you can find what you're looking for. *If you don't see a color, size or style in our catalog, just let us know.* We are happy to contact the factory to see what's possible for special orders.

 **When you need top quality crystal at an affordable price, Preciosa crystal components are a superb choice!**

Looking for quality and style at even more affordable prices?

We also offer crystals in other qualities that feature premium sparkle for less...

In our long history in the industry, John F. Allen has established direct sourcing relationships with many factories around the globe, including **AsFour Crystal** in Egypt, as well as the top Chinese crystal factories.

How To Use This Catalog

The items in this catalog represent just a portion of what we have available in stock in our 22,000 sq. ft. warehouse. Our inventory is too extensive to show everything here!

Please visit our website to see a more complete selection of stone sizes, shapes and colors. Need to place a special order or just have a question? We're here to help.

MAXIMA M.C. Chatons

Lead-Free Brilliance

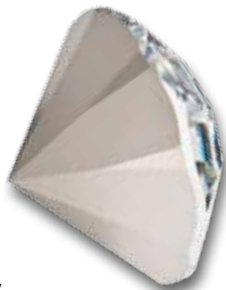

PRECIOSA

MAXIMA machine-cut chatons from Preciosa are produced in the Czech Republic using Hi-Pure Crystal™ technology, a unique manufacturing process developed to produce lead-free (less than 990ppm) crystal components with spectacular brilliance.

[Superior Durability]

MAXIMA's innovative **Dura-Foiling™** layer guarantees perfect light reflection and superior resilience, plus its neutral color makes it suitable for most designs. A patented formula prevents stones from peeling off when glued or set into clay.

Dura-Foiling™ also has excellent resistance to corrosion caused by electroplating, chlorine, salt water and perfumes, and its improved FLPR allows easier soft soldering.

[The Cut]

MAXIMA's patented cut features 15 sparkling facets that result in a brilliant refractive index of 1.585. Combined with the innovative Dura-Foiling, the MAXIMA machine-cut chaton offers unrivaled optical properties and exceptional quality.

MAXIMA's 15-facet cut features:

- Better light distribution
- More frequent scintillation with intense fire effect
- Significantly greater brightness
- Elimination of unwanted dark areas
- Visible differentiation due to an exclusive-looking cut

MAXIMA PURE[®]

Introducing MAXIMA Pure[®] unfoiled chatons from Preciosa.

This innovative product line inspires a myriad of design possibilities! Maxima Pure is comprised of unfoiled chatons in a range of sizes and colors. What sets Maxima Pure apart is the quality, precision cut and optical clarity of these pure lead-free Czech crystal chatons. Set them individually, encapsulate loose stones in a vial, or use them with adhesive to create a pave effect.

Transparent Unfoiled Glass T.T.C. Gemstones

We have the most complete line of Czech TTC (Table Tin Cut) stones in the industry!

We carry both foiled (see page at right) and unfoiled (this page) styles. These glass faceted gemstones are hand-pressed in a mold and the top center table is then cut, creating an affordable alternative to Machine Cut Fancy Stones. Our unfoiled stones refract light beautifully, adding luminosity to your designs.

Our heart shaped TTC stones are available in a range of sizes and colors, shown below.

M.C. Chaton Rose MAXIMA

Presenting Preciosa's Premier Rhinestone

The Highest Light Reflection on the Market

The MC Chaton Rose Maxima is Preciosa's latest crystal masterpiece. This premium rhinestone was created using the latest cutting software, and reflects 264 unique rays of light - the highest available on the market.

Design by Boris Hanečka.

Available in Foiled and Hot Fix

- ▶ Foiled and hot-fix versions feature a silver reflective layer that ensures greater light reflection and intensity.
- ▶ A white silver satin layer creates a neutral base that does not interfere with the stone color, and allows easy and improved application to a wide range of materials including denim, suede, glass, metal and plastic.
- ▶ Preciosa's reengineered AB coating features improved color consistency and resilience. Its lighter shade allows more of the stone's underlying hue to come through, for enhanced color intensity.

 Indicates hot fix stone

The Cut

The MC Chaton Rose MAXIMA is offered in fourteen different sizes, each with a corresponding cut so that every individual crystal produces the same dazzling effect.

- ▶ 48 colors
- ▶ 25 coatings
- ▶ 14 sizes

M.C. Chaton Roses

(Regular and Hot Fix Styles)

Produced in the Czech Republic, Preciosa's premium flat back stones feature exceptional lead-free brilliance, fire and sparkle. Available in regular and hot fix, these durable, expertly crafted stones are suitable for a wide range of applications on textiles, jewelry, handbags, shoes, eyewear and giftware.

[VIVA12®]

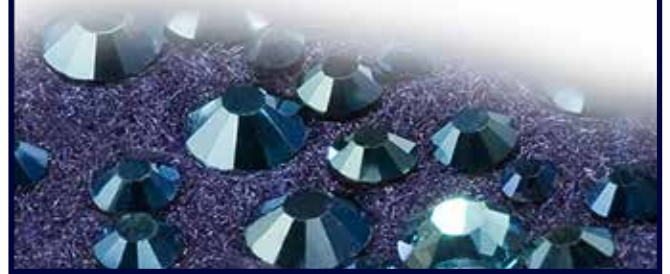

These lead-free stones feature superior optical properties and durability. Both regular and hot fix VIVA12® stones have a flat back surface with multilayer foiling that results in superior adhesion and bond strength. They are easily applied to a wide range of surfaces, whether gluing, hot-fixing or sewing them on.

Visit our web site to download gluing and hot fix application manuals for step-by-step instructions on how to use these stones.

[HF Hot Fix]

Preciosa hot fix stones feature a special low melting point adhesive. Their unique aero-bubble structure guarantees easy and delicate application on a wide variety of materials including elastic fabrics. Visit our website to download a complete hot fix application manual.

Available in clear crystal, jewel colors and a variety of specialty coatings on a crystal base. (See color chart on right-facing page.)
