Certificates

Product certificate according to the PN 0840, PN 0841, PN 0880 and PN 3890 Industrial Standards.

Warning

Slight color deviations due to natural properties of glass cannot be avoided.

Directions for use

Specific properties of the product need to be understood:

Seed Beads should be kept away from small children (danger of swallowing and/or inhalation).

Cosmetics

Ordinary cosmetics do not effect the glass and surface treatment. The surface layer does not dissolve. Neither the glass nor the surface treatment chemically interacts with fabrics or the skin.

Perspiration

When used for usual decorative purposes, Seed Beads are not negatively effected by perspiration. The surface treatment remains stable.

Dry Cleaning

Clothing decorated with Seed Beads can be dry cleaned using common commercial dry cleaning solutions (non-polar organic solvents). Both the glass and the surface treatment will remain unaffected.

Washing

Color washing cycle with temperature of up to 40°C (100 F) and non-bleach washing liquid will not negatively effect Seed Beads.

Storage

The shelf life of Seed Beads will increase when stored in a dry and dark place.

Color Fastness

Seed Beads are color fast when stored in a dry and dark place. When used for common garment and jewelry applications Seed Beads maintain the same color. The color fastness has been tested according to the European CSN EN ISO 105-B02 Standard.

Silver Lining

Silver lining may change color when exposed to substances containing sulphur, acid or chlorine. Silver lining decays when exposed to these substances or if the silver lining's surface is mechanically scratched. Silver lining may discolor when stored in extreme heat and humidity.

Wear

Seed Beads and the surface treatments are wear resistant. Excessive friction can result in high wear and partial loss of the surface finish.

The above properties will hold as long as Seed Beads are not subjected to aggressive chemicals which would interact with glass or surface treatment.

Inside and outside coated Seed Beads should be handled with extra care. If holes are scratched beads will gradually change or loose color.

Color Washing Cycle

Do Not Iron

Do Not Dry Clean

Ecology

Preciosa Ornela manufacturing facilities utilize the latest environmentally friendly technology. When used for their intended purpose all products are free of health hazards.

Product specifications

Shape/Hole: per special list of all combinations of shapes and holes

Standard sizes: per special list of all combinations of shapes and holes

Colors and coatings: per Seed Beads Color Cards (see the list below) and confirmation of trade office

Products in the same family:

Shapes (per Shape Card)

Two-Cut Beads and Three-Cut Beads

Bugles

Striped Beads

Triangles and Squares

Farfalle

Terra Colors

Sol – Gel Colors

Seed Beads – Rocailles Color Card

Seed Beads are available loose or strung.

Delivery subject to order confirmation.
